I’m a dedicated and results-oriented undergraduate student currently pursuing a Bachelor of Science in Information Technology (BSIT). I’m passionate about solving real-world IT problems and have hands-on experience working on academic and personal projects involving both hardware and software technology. I take initiative, learn quickly, and always strive to exceed expectations in every task. With a strong work ethic and a proactive mindset, I aim to deliver quality results and contribute meaningfully to any team or project I’m part of.

Education
